Sit Tall, Feel Better:

Easy Chair Stretches for Posture

- 1. Neck Stretch**
Sit up straight. Look left, look right, and gently stretch each side in the process. This helps release tension and keeps your neck flexible.
- 2. Shoulder Rolls**
Roll your shoulders backward and then forwards in big, slow circles. Make sure you are sitting up as straight as possible. This loosens tight muscles and encourages upright posture.
- 3. Seated Side Stretch**
Raise one arm overhead and lean gently to your opposite side. This opens up the muscles in your sides and keeps your spine happy.
- 4. Chest Opener**
Lean forward and clasp your hands behind your back, and gently pull your shoulders back. Perfect for counteracting that forward hunch.
